A Cry For Justice: The Unanswered Questions

- Sirhan Sirhan's .22 calibre gun held 8 shots. Why did initial evidence reports account for 12 bullets?
- What was the hard evidence which held the four other bullets? And why was it destroyed by the LAPD?
- Why did the LAPD destroy thousands of critical photographs, documents and other evidence before Sirhan's trial?
- The LA coroner testified that RFK was killed by a bullet wound inflicted from behind. Yet eyewitnesses put Sirhan in front of the Senator. If this is true, how could Sirhan have fired the fatal shots?
- Who had another gun in the room, and was in an ideal position to fire the fatal shots?
- Is there first-hand testimony linking organized crime to the murder?
- Just after the assassination, a CBS radio newsman reported that he saw another person in the room fire a gun. Shortly afterwards, he changed his story. Why? What did he really see?
- If there was a second gun in the room, what happened to it? Can it be recovered? Was it destroyed? Or has it been concealed from justice for 25 years?
- Many psychiatric experts believe Sirhan is a classic hypnotic subject. Was it possible for him to be programmed as an assassin? What was the official reaction when an expert tried to de-program him?
